## PRE / **POST** Survey Comments on Same Student

A struggles with anger issues and his ability to control his behavior when he gets upset.

**A is beginning to accept teacher redirection. He has shown improvement in controlling his anger.**

V needs to take responsibility for work and choices. He would benefit from learning to problem solve & gaining leadership skills.

**V is really working harder now to be successful. He really enjoyed the FACE program!**

We are meeting with D's mother soon to discuss possible autism diagnosis. He is very quiet and previously home schooled.

**SO proud of D, he's really starting to lead and participate in conversations.**

J needs to take more responsibility with his work and personal education.

**J wants to be successful. He has improved in his organizational skills and hands in assignments more frequently.**

N struggles to read and as a result masks his insecurity with humor.

**N is showing potential to be a classroom leader.**

C. seems very unsure of his abilities and has little confidence when working or speaking in class.

**I have seen a big difference in C's class behaviors. He is raising his hand to answer questions in class**

L. has problems with outbursts and hitting, being hyperactive and could not focus.

**L has shown HUGE SUCCESS!**

T is not confident in herself and needs focus to make progress

**There has been a change in T's attitude toward learning and social interactions. Both her reading and math assessment grades have gone up.**
